

Cookie Policy – Spitfire Technology Group

What are cookies?

Cookies are small files that are saved on your computer or device after a visit to a website. These files allow the site to recognise you if you return to the site and may even provide extra information about your visit, for example, how much time you spent on that site. Businesses are then able to use this information to improve your user experience and tailor their site or advertising to be more relevant to you.

How Spitfire Network Services uses cookies

When you use our site, we may place the following cookies in your web browser.

Google Analytics and AdWords Cookies

These cookies generate information regarding your interaction with our site. They may tell us things like how much time you spent on our site, whether you have visited the site before and what pages you interacted with whilst visiting our site. Learning about how you interact with our site allows us to improve our content and provide you with the information/services you need.

Cookies which provide us with information regarding what pages of our site you have visited help us to provide more relevant advertising.

Please note that any data collected in this way is completely anonymous.

How to opt out

You are able to delete any stored cookies or to refuse cookies by changing the settings on your web browser. To learn how to do this, please visit the help pages of your browser. However, in doing so, this may mean that certain pages of our website may not display properly.

Where you can find more information about cookies

Please visit the following sites to learn more about cookies and their use:
